

Tractor Driving 13-15 Years Old

At a glance...

Training (Only)

Duration Notes:

The expected duration for the course is two days, however please note this may vary according to factors such as level of experience, modules or attachments selected, or the ratio of instructors to learners.

Delivery Method:

Training (Only)

Introduction

Instil expertise in the next generation with our two-day tractor driving course.

Overview in brief

Rural industry has a long and proud tradition of giving young workers the opportunity to learn on the job.

Operating tractors is a classic example of that.

Using agricultural machinery involves an element of danger, and tractors are no exception.

Our course enables younger workers to develop or expand on the skills and knowledge required to operate a tractor safely and competently.

The finer details

Experienced instructors will guide you through two days of training.

You'll be able to use the tractor safely and with confidence. The key fundamentals of driving and loading are covered.

There are also sessions on pre-start checks and health and safety.

You will work with some of the attachments that make the tractor such a versatile machine.

Course sessions:

- Health and safety legislation
- Controls
- Pre-start checks
- Operating the tractor
- Manoeuvring
- Mounted implements
- Trailed machines.

Who should attend?

Our course is suitable for all younger tractor drivers who are either new or have some experience in driving tractors in the agriculture, amenity, forestry, industrial and horticulture industries.

Please note you will need written consent from a parent or guardian to be eligible for this course.

What will be covered?

By the end of the course, you'll be able to:

- Mount and dismount safely
- Understand the purpose and meaning of the instrumentation
- Understand the function of all controls
- Understand the hazards associated with using controls
- Understand the reasons for daily checks
- Start and stop the engine in a safe manner
- Be competent in driving a tractor in a forward and reverse direction
- Leave the tractor in a safe state
- Competently perform checking of the lubrication, cooling and air intake of the engine
- Perform basic lubrication of the tractor and ensure it is in a safe road-going state
- Attach a mounted implement and manoeuvre in a forward and reverse direction
- Attach a trailed implement and manoeuvre in a forward and reverse direction
- Leave unattached implements in a safe state.
